

**SPS BIO-CHEM**  
Pvt. Ltd.  
The Power of Thinking Future

## SPS BIO-CHEM

a subsidiary of the well-known S P Singla Constructions Pvt. Ltd., which has a strong presence in the construction of bridges, roads, tunnels, etc. is a Panchkula-based company with its state-of-the-art manufacturing plant in Yamuna Nagar, Haryana.

Our objective is to exceed the expectations of the farming community by providing innovative solutions based on our R&D and unleashing the passion of our people. Today, SPS Bio-Chem stands on the threshold of a new era in the Indian Bio-Fertilizer Industry, with a significant stake in various market segments.

### Key Products from our CBG Biogas and Organic Manure Plant include:

-  **Compressed Bio Gas (CBG)** - With Capacity of 6.4 TPD, we have dedicated supply to Oil PSUs as a replacement for CNG at their designated outlets. The technology involves biogas production using anaerobic digestion.
-  **PROM (Phosphorus Rich Organic Manure)** With Capacity of 100 TPD it is manufactured using Rock Phosphate, FOM (Fermented Organic Manure), Bentonite, and other herbal additives. The specifications of PROM is in accordance with the Fertilizer Control Order (FCO) of 1985.
-  **FOM (Fermented Organic Manure) and LFOM (Liquid Fermented Organic Manure)**, are valuable products obtained as byproduct of anaerobic digestion. The specifications of FOM and LFOM are in accordance with the Fertilizer Control Order (FCO) of 1985.

**SPS BIO-CHEM**  
Pvt. Ltd.  
The Power of Thinking Future

## **We have the finest state of Art Facility at Yamuna Nagar**

The plant and machineries include well-designed precision equipment developed indigenously, and we have adopted the highest possible automation to run and control the plant and system. We follow stringent quality and safety norms, conforming to the best practices of the industry. Furthermore, we are in the process of obtaining NPOP and APEDA certification from an accredited agency shortly. To ensure the quality of our products, we also have an in-house laboratory that conducts rigorous testing, ensuring compliance with the norms set by FCO (Fertilizer Control Order) and BIS (Bureau of Indian Standards).

Our young team of engineers has the requisite and relevant experience in the industry and is well-equipped to handle the facility in the most professional manner. We have received recognitions from UNIDO for our innovations, making us eligible to earn carbon credits in the international market. This is a testament to the efforts we have made to serve the farming community worldwide.
